

Career Ladders for Pharmacy Technicians: ADVANCING PATIENT CARE

With PTCB's credentialing opportunities, pharmacy technicians can customize their professional development experience. Assessment-Based Certificates demonstrate knowledge in specialized areas of pharmacy, and together build the newly available Advanced Certified Pharmacy Technician (CPhT-Adv) credential.

NEW! Nonsterile Compounding Certificate

CLIMBING UPWARD

Your pharmacy technicians pave their own paths to the CPhT-Adv credential by earning specialty certificates that are relevant to their experience and interests.

Earn four Assessment-Based Certificates

or

Earn three Assessment-Based Certificates,
plus the Certified Compounded Sterile
Preparation Technician® (CSPT®) Certification

"The advanced certification is new, but the mission is not. Obtaining the CPhT-Adv Certification is a solid way to show your dedication to not just your pharmacists, employers, and staff team, but most importantly to your patients, customers, and yourself."

— Christopher Shawn Moore,
CPhT-Adv, CSPT
